

Visa Information

US citizens don't require a visa for visits up to 90 days. For longer stays, apply for a long-term visa.

Necessary documents generally include a valid passport, travel insurance proof, flight reservations, accommodation proof, and proof of financial resources.

For citizens of other countries

EU citizens don't need a visa for the Czech Republic. Non-EU citizens (like those from India, China, Russia) must apply for a Schengen visa for short visits. For longer stays, a long-term visa application is necessary, with requirements similar to those for US citizens.
