

Visa Information

US citizens do not require any visa to marry a fellow US citizen. Western men are free to marry in any US state, following the local laws and regulations regarding marriage.

For foreigners, in simple terms, there's a special visa called a K-1 Fiancé(e) Visa. This lets your lovely American mail order bride bring you to the US for the wedding. Once you're hitched, you can apply to stay in the US permanently. For full details, it's best to meet with an immigration expert or visit the US Department of State's [website](#).
