

Visa Information

For US citizens, there's a need for a K-1 visa if you're planning to consider bringing Norway women to your country. Once you're determined to get married to one of the Norwegian females, you need to apply for this visa, and it might take some time before it can be granted. Upon the arrival of your Norwegian lady, make sure you get married within 90 days so she can change her residence status in the US.

When it comes to other countries, there are some visa types, like a K-1 visa. The fact that you might consider getting married to a person from the EU makes Norwegian women easy to bring to your country.
